FAO: Elaine Quigley

I am writing to oppose planning permission for the above property. My grounds for opposition are as follows:

- The design and height of the roof in-fill will block the existing view of central London we enjoy from our roof terrace.
- The impact this will have on the enjoyment of our own space will be significant.
- A significant loss of privacy will result from being overlooked from proposed windows in the design.
- Significant work is already happening on the property before planning has been granted.
- Construction noise from the building works is already extending beyond allowable work hours.

Thank you,

Jarrad Murray
