

VOLUME CALCULATIONS:

REAR DORMER =
 $(2.62\text{m} \times 4.11\text{m} \times 4.91\text{m}) / 2 = 26.44\text{m}^3$

$26.44\text{m}^3 < 40.00\text{m}^3$

Therefore P.D as End-of-Terraced
Property with a volume allowance of 40m³

- Notes:**
1. The General Contractor is responsible for the verification of all dimensions on site and shall inform the contract administrator of any discrepancies.
 2. Do not scale from this drawing. Use figure dimension only.
 3. Existing foundations, lintels and wall to be exposed if required by Building Control for assessment and upgrading if found inadequate.
 4. It is the home owners responsibility to obtain party wall, line of junction or notice of adjacent excavation agreements.
