Dear sir,/madam,the tree marked as g1 seems to be in worse condition than the one marked T11 it certainly sways about more in high_winds. T11 is going to be felled.if g1 was to fall,iwould expect severe [damage.to](#) property.were it to fall in the street it could pose a danger to [life.as](#) that is where the children tend to play.the same concerns have been expressed by my neighbour at number 9 Bergholt mews.he suggested that I could send you photographs which might illustrate the situation more clearly. G1 is a massive tree and the.proposed work is minimal. As a health andsafetymatter we hope that y0u will be able to address this matter my name is Brian Harris
