**** OBJECTION LETTER ****

This is a high-risk application in the residential area. The proposed site directly sits near the A41 junction and the important bus stop connecting Finchley Road station. The location of this site for online delivery business is highly dangerous for the living families esp, with the elderly people and children.

Distribution deliveries made by trucks or mopeds will create lots of noises and nuisance at early hours and late nights. This will cause major disruption to the school goers, office goers, sick people attending hospital appointments and also for normal travellers who are travelling to Finchley Road or Golders Green station.

Furthermore, it will create traffic congestion, deter visibility if heavy trucks are parked, which may lead this road to accident prone. This will disturb the peace of many families living in this part of neighbourhood. Any involvement with trucks or heavy vehicles used for commercial purposes should highly be avoided and should not be accommodated for future plans in this already crowded residential areas.

I strongly object that the storage in the residential building should not be utilised for any types of commercial usage.

Regards,
Mala
Wendover Court resident.
