Subject: RE: Planning & advertisement consent applications - 35-36 Hampstead High Street - 2021/1975/P & 2021/2972/A

Importance: High

Good afternoon Tony,

I hope you are well. Thank you for your patience whilst we address your requests.

Please find attached the amended drawings. As requested in your email below, I can confirm that the illumination is only in the lettering and not the entire projecting sign. Attached are the manufacturer's specification documents for the refrigeration plant, louvres, acoustic wall lining and metal door. The website link for the Nassau MOE metal door can be found here:

<https://nassau.co.uk/products/industry/steel-door/high-security-doors/>

With regards to the existing wall-mounted condenser units, the architect has confirmed that 6 of the condenser units are definitely being removed, however, they are confirming whether the 4 units on the left, as shown on the drawing will be removed. As soon as I receive confirmation, I will notify you.

In regards to the planning fee, we will pay the additional £228 by phone. Thank you for informing us about the short time extension. As the consultation period is due to end on the 9th July 2021, is it correct to suggest that the new determination date will likely be around the 16th July?

Hopefully everything we have provided is sufficient and we can push towards finalising the applications.

If you have any queries, please do not hesitate to contact me.

Kind regards,

Anil
