Proposal			
Erection of a rear dormer extension and installation of two roof lights to the front			
Recommendation:		Grant Lawful Development Certificate	

Site Description

The application site is a three storey end of terraced property. The property is not listed and is not located within a conservation area. The proposal comprises a full width and height rear dormer extension and the relocation of two rooflights from the rear to the front of the property.

Classes B and C of the GPDO are relevant here for the proposed assessment.

Class B - The enlargement of a dwellinghouse consisting of an addition or alteration to its roof		
If yes to any of the questions below the proposal is not permitted development		Yes/no
B.1 (a)	Permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class M, N, P, PA or Q or Part 3 of this Schedule (changes of use)?	No
B.1 (b)	As a result of the works, would any part of the dwellinghouse exceed the height of the highest part of the existing roof?	No
B.1 (c)	As a result of the works, would any part of the dwellinghouse extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway?	No
B.1(d)	As a result of the works, would the cubic content of the resulting roof space exceed the cubic content of the original roof space by more than— (i) 40 cubic metres in the case of a terrace house, or (ii) 50 cubic metres in any other case? <i>Volume measured is approximately 26m³</i>	No
B. 1 (e)	would it consist of or include— (i) the construction or provision of a veranda, balcony or raised platform, or (ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe? <i>Officer comment- the plans do show what would resemble a Juliette balcony on the rear elevation of the rear dormer. However the technical guidance notes that a Juliet balcony, where there is no platform and therefore no external access, would normally be permitted development.</i>	Yes
B.1 (f)	Is the dwellinghouse on article 2(3) land?	No
B. 1 (g)	The dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses)?	No
B.1 (h)	The existing dwellinghouse has been enlarged in reliance on the permission granted by Class AA (enlargement of a dwellinghouse by construction of additional storeys)?	No

Conditions - If no to any of the questions below the proposal is not permitted development:		
B.2 (a)	Would the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?	Yes
B.2 (b) (i)	Other than in the case of a hip-to-gable enlargement, would the eaves of the original roof be maintained or reinstated; and the edge of the enlargement closest to the eaves of the original roof is, so far as practicable, not less than 0.2 metres from the eaves, measured along the roof slope from the outside edge of the eaves.	Yes
B.2 (b) (ii)	Other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension, would no part of the enlargement extend beyond the outside face of any external wall of the original dwellinghouse?	Yes
B.2 (c)	Would any windows inserted on a wall or roof slope forming a side elevation be obscured-glazed and non-opening unless the opening part is higher than 1.7 metres above the floor of the room in which the window is installed?	N/a

Class C - Any other alteration to the roof of a dwellinghouse

C.1 (a)	Permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class M, N, P, PA or Q or Part 3 of this Schedule (changes of use)?	No
C.1 (b)	As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? <i>According to plans the rooflights would protrude 100 millimetres from the roofslope</i>	No
C.1 (c)	As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof?	No
C.1 (d)	Would it consist of or include— (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe; or (ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment?	No
C.1 (e)	The dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses)?	No

Conditions - If no to the question below then the proposal is not permitted development:		
C.2	Would any upper-floor window located on a roof slope forming a side elevation of the dwellinghouse be— (a) obscure-glazed, and (b) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed?	N/a

As such, the proposed development is permitted under Class B and Class C Part 1 Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) and therefore considered to be permitted development.
