My understanding is the applicants also owns the neighbouring garden flat at number 29 and recently bought the number 27 garden flat, so are they the actually one and the same as the neighbours they refer to in the application reasoning? They would have been fully aware of these trees prior to purchasing the number 27 garden flat.</p> <p>I leave it down to the council conservation officer to deem whether they feel sufficient evidence of rot has been provided in terms of removal of the one tree. There seems no valid justification for removal of the second tree.</p>
