

**Subject:** IMPORTANT - SAVE MUSEUM STREET - A Citizen of London

**Importance:** High

Dear All

I am writing to express my opinion that I feel this development (which I was really shocked to learn about) in its current form, is extremely damaging for this very old and unique part of Central London and for our community and should not receive planning permission.

It is rather sad that the reality appears, especially more so than ever, it appears that **Corporate Profiteering** is succeeding in outcasting local residents and small businesses, whose voices are never seen to be heard.

Where is the **common sense** (an old fashioned word that seems to be going out of fashion) that in this area one would allow planning to build Tall Tower/s near/next/surrounding beautiful buildings and ruin the skyline, which will then, as always, continue with other/similar.

Regards

Mrs S. Mengassini
