Proposal Replacement of shopfront windows and door.

Objection Yes

Comment Yes

Observations The external roller shutter did not form part of the previous planning permission and should not have been installed subsequently. External roller shutters have a highly detrimental impact on the character and appearance of the Conservation Area and we strongly object to the proposed retention of it. Any security required should be internal and of the type that permits a view through to the interior. Materials for the shopfront would ideally be timber framing not metal but we understand that this is not being changed therefore accept its retention. As a consequence it makes sense for the new door to match the existing metal frame.
