

Subject:

2021/2945/P

Dear Sir /Madam,

I would like to comment on the above application.

The electrical cord route should not be positioned on the fence,
as it is partially owned by number 2 Lambolle road.

For the purposes of repair, replacement, and the general
maintenance and removal of vines, roses and any greenery,
we are regularly pruning on this fence, and I have a safety concern.
Maybe if there was an armoured cable, this would mitigate any safety issues.

I do have an issue with the heat pump being a very noisy apparatus.
The garden is should be free of machinery, especially one that can potentially run 24/ 7.
The cover should have some sound insulation/ acoustic backing, and details
should be provided to mitigate extra and unnecessary noise.

Thank you,
Stacey tappis-Offer
