2021/3522/T	B A Abraham for The Belsize Society	24/07/2021 17:05:34	OBJ	This is an attractive mature tree, highly visible from the street and therefore with considerable amenity value. The tree is in a prominent position, close to the pavement, and makes a significant contribution to the streetscape and its loss would be detrimental to the neighbourhood. If the tree is causing damage to the boundary wall and raised bed-retaining wall, then the wall should be adapted to accommodate the tree. In the light of the tree's benefit to the neighbourhood, damage to the wall is not a good reason to fell the tree.
