2021/2446/P	Mrs C Lis	28/07/2021 11:30:04	OBJ	<p>I strongly object to this application.</p> <p>My daughter has only just moved [REDACTED] across [REDACTED] from the application site and there has been no notification sent to her about the proposal nor indeed has there been any notices on the lamp posts, etc.</p> <p>I object to the proposal on the grounds that it is a commercial development turning much needed residential space into a detrimental health and safety hazard for all the many people living around this site.</p> <p>My daughter has a small baby which she has in a buggy when going to and from her home. With the huge predicted increase in noise and pollution from deliveries to and from this site it will be detrimental to not only their health but also all other residents. The impact will be 24 hours a day with deliveries and the air quality (already above legal levels) will be even poorer because of this. The noise and disturbance will be adverse to their health and living standards and trying to cross the already busy road to the bus stop will be even more dangerous than it is now. The buses all stop near this application site so it will have a knock on detrimental affect to the running of the buses.</p> <p>My daughter moved to her new home on the edge of a Conservation Area in order to have a protected area to live next to. It will hugely affect the Conservation Area too and must surely be against Camden's own policies?</p> <p>Please refuse this application for all the reasons given and the fact that it goes against Camden's own policies to increase residential homes. [REDACTED]</p>
