6. Description of the Proposal

Please note in regard to:

- Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use.

Change of use from BT Standard KX100 Series public telephone kiosk to a Standard KX100 Series containing small Cell

To provide high quality, high speed 3G or 4G mobile phone connectivity for the benefit of the community, utilising our payphone estate. This will be achieved by installing small cell equipment within the dome of the kiosk, the kiosk's payphone will continue to work as before.

We recognise that this kiosk is located in a conversation area and therefore we have taken this into consideration when designing the upgrade. We propose small changes which we believe do not harm the local area as the housing fits well into the existing street scene and is compatible with existing buildings and structures

Our proposal involves adding a small mobile cell Black antenna to the top of the kiosk's dome, with associated equipment and venting within the dome.

In detail the changes include:

a)A New IP rated roof dome

b)A small Black puck-shaped antenna fitted to centre of roof dome.

c)inlet vents with fans on one side of the dome and vents on the opposite side to allow forced warm air to exhaust.

d)Warning Labels

So no additional street furniture required for the conversion of the existing kiosk on the current foot print

Has the work or change of use already started?

☐ Yes ☒ No

7. Further information about the Proposed Development
