2021/3230/P	Mrs Prooth	01/08/2021 09:43:19	OBJ	<p>What worries me and most likely many more residents is the continuing of basement developments, which eventually have a severe detrimental effect on surrounding properties.</p> <p>Sadly, I have had experience of this and when planning department were approached about the earth movement which occurs after a very few years. We as residents throughout the Borough of Camden are completely ignored and basically told 'TOUGH LUCK', this is a civil matter.... Please do turn down this application, and take into consideration the environmental effect, especially in view of the local flooding in this area, which as a Council you have totally ignored but still expect the rents and business rates to be paid on time/</p> <p>If developers want to expand their properties to this extent it may be better if they moved to larger premises or monies be set aside to compensate the residents close by, plus the Council take a definite view to turn down these proposals.</p>
