2021/3464/L	Mark BAILLIE	03/08/2021 16:19:53	COMMNT	<p>OPPOSE ON GROUNDS OF DANGER AND OF INCREASED EMISSIONS BY OBSTRUCTING SMOOTH TRAFFIC: This building is in the middle of the road at a junction so pedestrian traffic to it would be uncontrollable and dangerous to pedestrians and to road traffic. Installing traffic lights or a zebra crossing raises serious problems:</p> <ol style="list-style-type: none">1. an unjustifiable public expense;2. an obstruction to the currently smooth flow of traffic along those busy roads (Guilford St. is the main route between Gray's Inn Road or Mount Pleasant and Russell Square, and the access to that from Guilford Place, running from Great Ormond Street);3. smooth running traffic is very important for cutting emissions;4. that traffic includes ambulances to three hospitals down this road, Guilford Pl., to Great Ormond St. and Queen's Square;5. lights or a zebra crossing not actually likely to prevent pedestrians crossing when and where they wish, putting themselves in danger and hindering traffic.
