Informative(s):

- 1 Reasons for granting permission:

The application seeks to vary condition 2 (approved plans) of planning permission ref. 2016/6490/P dated 31/10/2019, as amended by 2019/6330/P dated 19/08/2020.

The scheme originally proposed to omit the Corten steel mesh element at the roof level extension. However this alteration was removed from the proposed changes following officer concern that it would reduce the overall quality of appearance of the roof extension. As such, the scheme proposes the following minor works: Omission of redundant rear window, removal of front facing lower ground floor windows, omission of the redundant rear chimney, render detail added to the rear elevation, omission of lower ground floor side extension, removal of cornice on the north-east corner of the building, retention of the parapet (rather than adding to it), removal of a section of roof to the plant area, fourth floor amendments to windows and doors, and extract grilles added as required.

The works have largely arisen as the development has progressed in response to building regulation requirements and practicalities on site. The revisions identified above are not considered to result in harm to the character and appearance of the property or surrounding conservation area, having a neutral impact on both, and are considered to be acceptable in this instance.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

A Noise Impact Assessment has been submitted to review the impact of the removal of the section of the roof surrounding the plant. This has been assessed

by the Council's Environmental Health (Noise) Officer, and is considered to be acceptable, subject to the attached condition.

The proposed alterations would not serve to materially alter the impact of the proposed development, with additional levels of overlooking, sunlight/daylight or outlook impacts, or any other amenity impacts. As such, the proposal is considered not to impact on the residential amenities of nearby occupiers above that of the original consent.

The overall floorspaces provided by the development would remain unchanged from the previous approvals on this site, and so the affordable housing and other contributions/heads of terms within the S106 would remain unchanged. This approval is subject to a Deed of Variation to transfer the original agreement (linked to 2016/6490/P dated 31/10/2019) to this consent.

The CAAC originally objected to the removal of the roof level Corten mesh and the the revisions were subsequently amended to retain the previously approved Corten element. Other queries raised by the CAAC were answered, and the CAAC subsequently removed their objection. No other third party comments were received following consultation. The planning history of the application site was considered prior to this determination.

A deed of variation is required to transfer the S106 legal agreement from the previous application (2016/6490/P dated 31/10/2019, as amended by 2019/6330/P dated 19/08/2020) to this consent.

As such, the proposed development is in general accordance with policies A1, A4, CC1, CC4, CC5, D1, D2, G1, T1, T2 and T3 of the London Borough of Camden Local Plan 2017, the London Plan 2016, Intend to Publish London Plan 2019, and the National Planning Policy Framework 2019.

- 2 Your attention is drawn to the fact that there is a separate legal agreement with the Council which relates to the development for which this permission is granted. Information/drawings relating to the discharge of matters covered by the Heads of Terms of the legal agreement should be marked for the attention of the Planning Obligations Officer, Sites Team, Camden Town Hall, Argyle Street, WC1H 8EQ.
- 3 This proposal may be liable for the Mayor of London's Community Infrastructure Levy (CIL) and the Camden CIL. Both CILs are collected by Camden Council after a liable scheme has started, and could be subject to surcharges for failure to assume liability or submit a commencement notice PRIOR to commencement. We issue formal CIL liability notices setting out how much you may have to pay once a liable party has been established. CIL payments will be subject to indexation in line with construction costs index. You can visit our planning website at [www.camden.gov.uk/cil](http://www.camden.gov.uk/cil) for more information, including guidance on your liability, charges, how to pay and who to contact for more advice.
- 4 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

- 5 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website at <https://beta.camden.gov.uk/documents/20142/1269042/Camden+Minimum+Requirements+%281%29.pdf/bb2cd0a2-88b1-aa6d-61f9-525ca0f71319> or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 6 You are reminded of the need to provide adequate space for internal and external storage for waste and recyclables. For further information contact Council's Environment Services (Waste) on 020 7974 6914/5 or see the website <http://www.camden.gov.uk/ccm/content/environment/waste-and-recycling/twocolumn/new-recycling-rubbish-and-reuse-guide.en>.
- 7 You are advised of the need to ensure that all necessary consents have been obtained from Thames Water regarding the connection of the development to the public sewer. You should incorporate protection to your property from possible surcharge from the sewerage network during storm events, for example by installing a non-return valve to prevent backflow. Thames Water would recommend that petrol/oil interceptors be fitted in all car parking/washing/repair facilities. Please contact Thames Water Developer Services on 0845 850 2777.
- 8 Thames Water have advised that the design of the development should take account of a minimum pressure of 10m head (approx 1 bar) and a flow rate of 9 litres/minute at the point where it leaves the public water supply pipes.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.

Yours faithfully
