Reason: In order to protect local amenity in accordance with policy A1 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting advertisement consent:

The proposed fascia sign and projecting sign are considered acceptable in terms of scale, design, material, positioning and illumination, and would not appear incongruous in this setting.

The internally illuminated perforated aluminium mesh fascia and lettering is suitably scaled and positioned to be appropriate for the host building and the neighbouring terrace of properties.

The 750mm x 550mm projecting sign is considered acceptably placed, and will not harm any architectural features of the host building in this position.

All illuminations shall be limited to 500cd/m² which shall be controlled by condition attached to this decision.

The proposal is not considered to cause any harm to highways safety or residential amenity.

The site's planning and appeals history has been taken into account when coming to this decision. No objections have been received prior to making this decision.

As such, the proposal is in general accordance with policy D4 of the Camden Local Plan 2017, the London Plan 2021 and the National Planning Policy Framework 2021.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
