Dear Enya,

I hope this finds you well. As a local neighbour I fully support this application. I really believe we should be encouraging these extensions to create more family friendly properties. We know some of the families living in Erskine Mews and feel it is so important for our community that families can stay and grow in the area. Additionally I love the design and think that green roofs would be such an attractive outlook as well as beneficial to the environment – wish there were more in London.

I think the design is really impressive and can see it is a very thorough and thoughtful application. I strongly believe the area needs homes that can accommodate bigger families like ours. I am in full support

Kind Regards.
