

This technical drawing illustrates a staircase railing system. On the left, a vertical cross-section shows the internal assembly of the railing post, including a central baluster and a handrail, all secured with bolts and washers. To the right, an elevation view shows a series of balusters supporting a handrail. The handrail is composed of two parallel rails connected by a top rail. The balusters are evenly spaced and feature decorative finials. The railing is mounted on a wall, with the wall profile shown in cross-section. The drawing is a black and white line drawing, typical of architectural specifications.

This drawing is © Barbara Weiss Architects Ltd.

1. Do not scale from drawing.
2. All dimensions in millimetres unless noted otherwise.
3. No deviation may be made from the details shown on this drawing without the prior permission of the Architect.
4. Any discrepancy between this and any other documents shall be referred immediately to the Architect.

IF IN DOUBT ASK.

4. All dimensions to be verified on site.
5. Unless otherwise stated all levels to be AOD.
