

Subject: Re: one museum street planning objection

I have tried several times to object to this planning application on your website I cannot, get your site to work properly from my phone

I live newton st wc2b5es

I object to this planning application

Because of the disruption to our daily life is unwarranted, it will cause my traffic congestion. More pollution. More heavy vehicles trying to access an area all ready to traffic heavy, more noise, and a general detrimental effect on our environment when all and sundry tell us the environment is our most important consideration

There are millions of square foot of offices in London unused we do not need any more

29 homes on a site that size is a joke and an Insult
.denie this planning application

Paul taaffe
Newton Street res assoc
