2021/3652/T	Brad	11/08/2021 09:28:57	COMMNT	<p>The number of trees felled seems excessive for a single property. Restraint by pruning over complete removal is desired. Especially considering the recent flooding in the area and the role trees play in adverting this by desaturation the soil before the rainfalls start. Additionally the negative impact on this would have on feel of the gardens as well as the rich fauna we all share should be considered. Again some balance in which trees are felled and which are pruned seems a reasonable request. Thanks.</p>
