Dear Sir/Madam

DECISION

Planning (Listed Building and Conservation Areas) Act 1990

Listed Building Consent Granted

Address:
12 Jeffrey's Street
London
NW1 9PR

Proposal: Erection of a ground floor rear and side extension and alterations to front entrance and rear extension including the enlargement of rear window to form a door.

Drawing Nos: 242_223 Rev F, 242_222 Rev D, 242_200 Rev F, 242_201 Rev D, 242_211 Rev D, 242_210 Rev A, 242_133, 242_132, 242_121, 242_111, 242_110, 242_101, Design, Access, Heritage & Impact Statement by Space Group dated 23/10/2020 and Location Plan.

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Drawing Nos: 242_223 Rev F, 242_222 Rev D, 242_200 Rev F, 242_201 Rev D, 242_211 Rev D, 242_210 Rev A, 242_133, 242_132, 242_121, 242_111, 242_110, 242_101, Design, Access, Heritage & Impact Statement by Space Group dated 23/10/2020 and Location Plan

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reason for granting consent:

The application site contains a three-storey mid-terraced dwellinghouse. The site is within the Jeffrey's Street Conservation Area and contains a Grade II listed building. The proposal includes the erection of a ground floor rear and side extension and alterations to front entrance and existing rear extension including the enlargement of rear window to form a door.

The proposed rear and side extension would be half the width of the host building, 2.7m in height and 4m in depth. The new extension would combine with but be set back from the rear wall of the existing rear extension by 0.5m to form a full-width stepped rear extension. It would have a flat roof finished in asphalt with a large central rooflight and a smaller rooflight where it joins the rear elevation of the host building, with triple-glazed painted aluminium framed doors. Due to its location, it would not be observable from the streetscene and would only be visible in limited private views from the immediate neighbours. By virtue of its massing, position and design, the proposed extension would be a subordinate addition to the host building and is considered acceptable. It is also not considered to adversely impact the character and appearance of the conservation area for these reasons. It is observed that nearby properties such as Nos. 8, 10 and 18 Jeffrey's Street have similarly-sized full-width rear extensions and the proposed development is not out of keeping with the character of the locality.

The existing non-original opaque fanlight above the front main entrance would be replaced by a traditional single-glazed fanlight to better match the fanlights of adjacent properties. The framework of the new fanlight would be timber and finished to match existing. The proposed alteration would be an improvement over the existing and is considered acceptable in terms of design and heritage.

The side wall of the existing rear extension would be partially demolished to

create a link between the new dining area and study. Whilst the existing rear extension is not considered original, the nibs and downstand of the wall have been retained. The rear window of the existing rear extension would be enlarged and replaced by a single French door. The door design would match the sash windows above and the door and frame would be made of painted hardwood. The door would be double-glazed for insulation and security purposes. The failing roof of the existing extension would be replaced by a new roof with a large central rooflight and finished in asphalt. Lastly, the parapet of the existing rear extension would be removed and rebuilt with painted brickwork and finished with flashing in RAL 9017 to match existing and provide water-proofing. The new parapet would align with the adjacent new rear and side extension. The alterations to the existing rear extension would not be observable from the public realm and would not harm the character and appearance of the host building.

The proposals have been reviewed by the Council's Conservation Officer who confirms they are acceptable and would preserve the significance of the listed building.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

No objections have been received following public consultation. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

As such, the proposed development is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the NPPF 2021.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
