Mr P. A. Cattini,
12 Earham House,
135 Mercer St,
Cavendish Garden
London, WC2H 9QJ

2nd of August.

Dear Mr. Macdonald,

I would like to begin with the reason that I do not have access to the internet. Extremely bad vision, double, sometimes triple vision caused by Multiple Sclerosis, Epilepsy and the all the drugs I have to take to control my fits + some M.S. symptoms.

It takes an enormous amount of energy + time, neither of which I have left to spare having had M.S. since 1983 + Epilepsy since 1985. Selkirk House is in truth, a hideous building. But what are you replacing it with is EVEN worse! How can "green Camden" justify yourself? The pollution

caused by pulling this thing down must be massive! I have always voted Labour. If you allow this to happen, I will vote GREEN PARTY.

What about a New Flower Market? Anything but more of the same - the Romans must be true.
"You Just Don't Listen"
and "Never Learn!!"

The Planning application No: is -
2021/2954/P.

Why are you doing this?
Who gains from this horror?
Do any of you live in the area?
Do any of you live in Holborn?
The original Belkirk House if it
was a mistake. This new horror
is rubbing salt in the wounds -

I have lived in Seven Dials, Since
1997, & have lived in W.C.1. or
W.C.2. all my poor sweet life,

I am now getting double
Vision - Budd searching for
the people. What kind of
people are you,

Yours faithfully

P.S. Please write back to me - putting your
side of the case. Yes that's just what
we need another tower block -
Even bigger than the one we've
got. What the hell is it for?
