2021/3009/P	domenica sansone	14/08/2021 11:19:24	OBJ	<p>I am the owner of 2 Railey Mews.</p> <p>I hereby formally object to the proposed 2021/3009/P application at Workshop Rear of 38-52 Fortress Road, Fortress Grove London NW5 2HB.</p> <p>North elevation:</p> <p>According to my memory and photographs of the original building roof height, the new Studio B building roof steels and roof finishing materials mean the roof will be higher than they have permission.</p> <p>The lift shaft on top of the roof is larger in the proposal than the 2017/6788/P application drawing.</p> <p>I am concerned that the proposed finished Studio B roof height will impact on the view and amenity or my only outside space, compromising permanently my enjoyment of it.</p> <p>The applicant has admitted drawing errors in 2017/6788/P application and along with my comments regarding the proposed drawings, I have little confidence the proposed drawings are correct without the benefit of a proper survey. I find it incredulous that this has not been undertaken and strongly suggest it should be.</p> <p>East Elevation:</p> <p>I object to the applicant's proposal in seeking to overturn the assurance and protection provided to residents by the 2017/6788 application.</p> <p>It is most important that 2017/6788/P planning consent is correctly adhered to and the applicant abides by Camdens planning regulations.</p>
