2021/3635/T	Sue Wilby	13/08/2021 17:23:10	COMMNT	I fully support the proposed works, particularly the reduction of the very overgrown silver birches, one of which completely shades my garden and whose leaves and catkins are extremely time consuming to clear up. The trees are far too large in this location and should be reduced regularly, every three years at most - they are not beautiful trees and are not appropriate for their location. Tree T17 - the large, thick trunked birch planted just the other side of my fence, is particularly overgrown and unsightly.
