

I am sorry but I have rather given up trying to get onto the Planning site as I keep getting refused.

Please would you note our further objection to the amended application as we feel strongly that these do not resolve nor answer the objections in our previous objection. The danger to children with two schools on the specified roads, pollution from the significant additional lorry journeys, and extra traffic in a built up residential area – already with a number through road restrictions that recognise this - is apparent and should not be allowed. Please refuse this revised application.

With many thanks

Christopher Legge
