Space London NW1 1DN – Condition 139 (Renewable Energy)
Discharge Submission (LPA Ref: 2020/4631/P)**

Dear Sir/Madam,

Wildstone Planning have been instructed by Brill Place Limited to submit an application to discharge Condition 139 (Renewable Energy) for the above-mentioned planning permission granted 23rd April 2021.

Condition 139 – Renewable Energy

“Prior to superstructure works, a feasibility assessment with the aim of maximising the provision of renewable energy should be submitted to the local planning authority and approved in writing. The buildings shall not be occupied until the approved details have been implemented and these works shall be permanently retained and maintained thereafter.”

In order to satisfy the condition, the following documents are included within this submission:

- Completed application forms prepared by Wildstone Planning;
- Energy Statement, prepared by Cudd Bentley (23rd July 2021)

I trust that this letter and the associated documents are sufficient to discharge Condition 139.

Please do not hesitate to contact me should you require any further information.

Yours faithfully

Annie Reid
Senior Planner
