DRAWING KEY	
	Removal of Existing
	Removal of Wall Finishes
	Removal of Floor / Ceiling

#### General Demolition Notes:

**Structure**  
Take extreme care when removing existing structural elements. Refer to engineer's drawings for extent of demolition. The Contractor is responsible for the design of all temporary works / supports.

**Health & Safety**  
The Contractor is responsible for ensuring adequate measures are taken to provide a safe working site at all times. Should harmful or toxic materials (eg. Asbestos) be discovered on site in areas not noted in the health & safety plan, Contractor to stop works in this area and immediately contact the project manager / architect to assess the proper and safe removal of the material.

**Accuracy of Information**  
If any discrepancies exist between this drawing and site conditions or information provided by other consultants, contractors, sub-contractors, or if otherwise unclear, notify the architect immediately.
