Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent.

The application building is a supermarket located on the corner of Camden Street and Camden Road. The building itself is recognised as a prominent example of Nicholas Grimshaw's High Tech style which centres on revealing the construction techniques used rather than hiding them away and as such has been listed at Grade II with the neighbouring Grand Union Walk. It also lies in Regent's Canal Conservation Area.

Permission is sought for the installation of new plant and associated equipment on the roof as well as internal alterations.

Externally the new rooftop plant and services will be located in the lower central section of the roof and will therefore be screened from views from the surrounding streets and properties immediately neighbouring the site.

The alterations to the interior consist of the installation of new equipment in the plant room and reconfiguring the first floor space. This internal space affected is of limited importance to the special interest of the listed building and the proposed alterations could be easily reversed.

Public consultation was undertaken by means of a site and press notice but no responses have been received. Regent's Canal CAAC were also consulted but did not respond.

The site's planning history was taken into account when arriving at this decision.

Special regard has been attached to the desirability of preserving the listed

building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

The proposed works preserve the special of the Grade II listed building.

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
