2020/5913/P	(MRoseline	26/08/2021 09:44:27	COMMNT	As a mother of 2 children who are going to the both of schools (CFBL & St Patrick's Primary Schools), this Sergio Planning Application will be dangerous for family and children surrounding this area. What about the the pollution, good health of our children, the danger of traffic etc..., for all this reasons, I reject this project.
2020/5913/P	Eileen Mchale	26/08/2021 09:49:29	COMM	My children both go to st Patrick's school the traffic on this road currently is shocking the pollution and aggressiveness of drivers is insane your Camden reps that came out would have seen this!! The road is shockingly narrow if someone walks towards to you a pushchair you have no option but to step into the road which with the current traffic situation is beyond dangerous it's a accident waiting to happen!! The pollution from so many chairs up & down all day is awful and if this scheme proposed goes ahead how can it be a safe environment for our precious children!!! I see the roads have been closed off by schools recently at grafton road bottom end of queens crescent and that is now 24/7 so how can a road that quiet be granted a no car zone however the shocking traffic on Holmes Road continues it's bonkers how unsafe it is currently for our children not alone the new proposal - I totally object to this proposed planning happening for the safety of our kids WHY CAN YOU CLOSE OFF SURROUNDING ROADS WITH ALOT LESS TRAFFIC BUT YOU CANT TO THE ROAD THAT IS DANGEROUS BEYOND BELIEF & you are putting our children at greater risk that already our with traffic & pollution.
