2020/5913/P	Edith Durnez	01/09/2021 07:07:13	OBJ	I am against this project as it would deteriorate the access to nearby schools and security of children on Holmes road. Very dangerous and a lot of noise as well.
2020/5913/P	Caroline Clement	31/08/2021 23:29:45	OBJ	I wish to object to this planning application. 2 primary schools are located close by, on a street that is already very busy with traffic and pollution.
2020/5913/P	Bruno Clement	31/08/2021 23:17:22	OBJ	I wish to object to this planning application. There are at least 2 schools close to this site, meaning a lot of kids walking/scooting/biking in the area next to the site. Holmes Road is already really busy at school drop-off/pick-up times and traffic should be decreased as much as possible rather than increased: first to have a safer area around schools (ie for kids) and second to also have a healthier area (ie decrease and not increase pollution!). For those reasons I strongly object to the planning application
2020/5913/P	Boudewijn Dierick	31/08/2021 23:16:20	OBJ	Strongly object to this application as it will cause nuisance, traffic and danger for the children going to the schools on Holmes road.
2020/5913/P	Elsa ARCAUTE	31/08/2021 23:26:29	OBJ	The amended proposal does not address the concerns previously posted by the residents and the community of the two schools in Holmes Road. It is the responsibility of the council to safeguard its residents, and the proposal if approved, will clearly increase the traffic significantly, increasing the risk of car accidents involving children in the area. I do not believe that under any circumstance a development that puts the lives of children at risk should be approved.
