Mr Alexander Shinder
9 Hampstead Hill Gardens
London
NW3 2PH

Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Householder Application Granted

Address:
14 Nassington Road
London
NW3 2UD

Proposal:
Installation of 4x solar PV panels on roof.
Drawing Nos: Location Plan, Design and Access Statement, Existing Roof Plan,
Proposed Roof Plan, Existing Front Elevation, Proposed Front Elevation, Proposed
Elevations and Existing Elevations

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Drawing Nos: Location Plan, Design and Access Statement, Existing Roof Plan, Proposed Roof Plan, Existing Front Elevation, Proposed Front Elevation, Proposed Elevations and Existing Elevations

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 The solar panels hereby approved shall be removed from the building as soon as reasonably practicable when they are no longer required by the occupants of the subject property.

Reason: In order to safeguard the character and appearance of the building and local environment in accordance with the requirements of Policies D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reason for granting permission:

The proposed solar PV panels would be installed on the flat roof of the host building and the panels would be installed at an 10 degree angle where their highest points would be 0.3m above the roof level. Given that the panels are set back from the front and side elevations, the public views of the panels from the streetscene would be limited. The solar panels would be matt black and non-reflective. Overall, the proposal is considered appropriate in design terms and would not adversely affect the character and appearance of the wider South Hill Park Conservation Area.

The proposal is considered to improve the energy efficiency of the host building and reduce its carbon emission. As such, the proposed development is considered acceptable in terms of climate change mitigation.

Given the modest nature of the proposal, it would not result in undue harm to neighbouring amenity in terms of overlooking, loss of daylight/sunlight or loss of privacy, and are considered acceptable.

No objections were received prior to making this decision. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with policies A1, D1, D2 and CC1 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2021 and National Planning Policy Framework 2021.

- 2 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road

closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.

- 3 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 4 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.

You can find advice about your rights of appeal at:
