

Groom Professional Supreme Stainless Free-Standing Steel Electric Bath

A stunning, top quality bath for the busy salon. This bath is not like other stainless steel baths - don't get confused with cheaper imitations! This bath is manufactured from SS304 grade stainless steel, which is known for its durability and resistance to corrosion. It is made from 1.2mm SS304 steel, which is one of the thickest in the industry. This makes the tub much more durable and less 'noisy' while a pet is being bathed. The powder-coated frame lowers to an amazing 26cm and raises to 102cm - making it lower and higher than any bath we have seen!

The smooth action frame will not startle pets while they are in the tub. Can be raised and lowered using the water-resistant pedals. The splashback folds down meaning it will work in any bathing area and is perfect for those who like to access all side of the pet. Comes with two hooks for restraints. Comes complete with sliding door.

- 1.2mm SS304 grade stainless steel - one of the thickest in the industry
