2021/3392/P	Christiane Ten-Hoopen	10/09/2021 19:21:41	OBJ	<p>Dear Nora-Andreea Constantinesco,</p> <p>On behalf of the BCAAC I would like to object to the above application.</p> <p>The proposals for the roof top terraces and the helical access stair are acceptable and will improve the amenity of the building's occupants. However, we find the proposed double height entrance treatment onto Tottenham Court Road to be crude. It interrupts the simple composition of the the relatively elegant stone and glass facade as remodelled in 2007. It is also disappointing that the new intervention is in metal rather than Portland stone which, of course, is a material native to the Conservation Area.</p>
