

Application No:	Consultees Name:	Received:	Comment:	Response:
2021/3979/T	Hammond	10/09/2021 12:13:20	OBJ	The reasons for this application are unclear but I strongly object to the removal of these trees. They provide carbon storage in a highly polluted area, and are a necessary habitat for wildlife.
2021/3979/T	Darina Angelova	12/09/2021 16:35:42	OBJ	<p>I strongly object to the felling of the two limes trees specified as T1 and T2 in the planning application. I find it completely out of line with any reasonable care of the natural surroundings to consider the felling of two mature trees. The application does not give any details on the reason for the application, however if the reason is to have more natural light, then pollarding in line with preserving the health of the trees should be more than enough.</p> <p>Camden Council's Cabinet approved in June 2020 an ambitious five-year programme of projects and activities with the aim to bring to life a vision of a zero-carbon borough. Felling mature trees is in contradiction of a vision of a zero-carbon borough. Further, Camden Council has adopted a series of amendments to the council's constitution, which ensure that all council decisions seek to enhance the natural environment, and to act to mitigate and adapt to climate change. Granting a permission to fell the mature trees would be exactly the opposite to enhancing the natural environment and acting to mitigate and adapt to climate change.</p>
