1^c Regents Park Road
London NW1 7TL
17th September 2021

PLANNING APPLICATION 2021/3299/P
SITE ADDRESS 1^A REGENTS PARK
ROAD LONDON NW1 7TL

Dear Ms Constantinescu,

With
reference to the PLANNING APPLICATION
for the above address, as advertised
in the Camden New Journal, dated
2nd of September 2021

I wish to very strongly
object to this application on the
grounds of

- ① The people who are applying for
planning permission are Council
LEASEHOLDERS, and do not own
the land
- ② There are 3 Flats B, C, & D above
Flat A, which is occupied by four
residence
- ③ We must at all times have
clear & safe movement in & out
of the front entrance, with no
hinderance from builders equipment
building material, dust & dirt

We do not want to breath
in filth & dirt & walk dirt into
our homes

Visitors, postmen, doctors
dustmen & emergency services
meter readers (Gas & Electric must
feet soft to do their job

This whole business is
clearly a health and safety
issue and God forbid if a fire
started would we all get out in
time

- ④ As we are the first house on
Regents Park Road and in a
Conservation area, and also
considered to be a BUILDING
which makes a POSITIVE CONTRIBUTION
we feel that the extension completely
changes the overall architectural
style look of the building
- ⑤ I very angry that in the
planning application they say
they want to change all the
windows in the house from
wood to aluminium, which is out
of character for the house
- ⑥ They also say they want to
make our wall identical the
their house at No 3 NEXT DOOR

with a wooden door in the wall, well, all the post is delivered, I am over 70 years old, do I want to go to wooden door to get my post in the rain & snow & [REDACTED]?

- ⑦ The people who are applying for Planning Permission also own No 3 Regents Park Road over 7 years ago, for one & half years they completely gutted the whole building, dug out a basement, there was constant noise & dust 6 days a week (it was complete Hell) This work caused so much damage to the outside & inside of our homes (cracks every where) if they are allowed to knock down internal walls this will lead to further deterioration to the house

⑧

The people of flat A have full use of the back garden they are now trying to take over the front left hand garden (which has been cared for for years by the tenants)
Flat B

Yours sincerely

[REDACTED]

(MISS ANN WHITELOW)
