2021/3299/P	Lucia Sivilotti	20/09/2021 09:59:05	OBJ	<p>I live in Regal Lane and pass this spot several times every day.</p> <p>I object to the proposed changes in the wall and gate that back onto Regal Lane.</p> <p>Firstly, the proposal would increase the width of the vehicle gate substantially (and unnecessarily, as the present width easily accommodates a car). The increased width will reduce the parking space in the Lane, and it will destroy the present planting.</p> <p>Secondly, it is proposed to increase the height of the existing wall with a steel trellis. The Lane is already quite shady and dark. This area is one of the few spots with an open aspect, where light comes in. This is not just a matter of amenity, but of general security. As a single woman, who has to walk on her own, I find the plan to make this area DARKER and LESS overlooked by the windows of the flats in number 1 quite worrying.</p>
