**Subject:** Re: Advertisement consent application - 2021/3508/A - 9-11 Tottenham Street

Hi Tony,

Apologies for the delay in getting back to you with our revised drawing. As recommend, we have lowered the projecting sign and removed the internal illumination and replaced it with external illumination.

We can also confirm that the existing signage at 1st floor level will be removed and the building made good.

If you can review and let me know if the drawing looks satisfactory I will amend the application. Can you confirm that upon receipt of the amended application, the proposal will be put in front of the local community for comment, and assuming there are no issues raised, we should potentially receive your recommendation within a months time?

Many thanks,

Chloë Mager

Director
