

Application No:	Consultees Name:	Received:	Comment:	Response:
2021/3605/P	CRASH Committee	03/10/2021 21:47:02	OBJ	<p>CRASH (Combined Residents Associations of South Hampstead) objects to this application on the basis of its design/scale. It is noted that there are a variety of extensions on the properties in this stretch of Goldhurst Terrace however the majority of them span only the width of half the rear of the building while in some cases the extensions appear to extend across the entire rear width with differing designs on the two halves of the extension. However, this application stretches across around 2/3rds of the rear and its design means the master bedroom at the rear would have a view of a newly constructed wall, light would be blocked from the rear and in doing so, spoil the architectural value of the rear of the building and the conservation area.</p>
