Informative(s):

1

The proposed signs are considered acceptable in terms of illumination, size, design and location as they respect the architectural features and character of the host building. They are modest in scale and similar to the signage of the neighbouring units. Given these factors, it is considered that the proposals would cause no undue harm to the visual amenity of the host building, street scene and wider area.

The existign awning would be retained to the same dimensions which is acceptable.

The signage would not harm the amenity of neighbouring occupiers in terms of outlook. The signs would not be hazardous to vehicular or pedestrian traffic and so the proposal raises no public safety concerns.

No objections have been received prior to making this decision and the site's planning history was considered in the determination of this application.

As such, the proposed development is in general accordance with policy D4 (Advertisements) of the Camden Local Plan 2017. The proposed development also accords with CPG for Advertisements, the London Plan 2021 the London Plan 2021 and the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
