Dear Jaspreet

It is with great concern that I learned of the intention to place a 5G mast/emitter at the above address, in a populated residential area and in the vicinity of a school.

This would endanger the health and lives of the children and adults nearby.

Below are just a few articles expressing concerns about the safety of 5G radiation, including an article in the British medical journal.

I feel sure you hold your citizens' safety and well-being above all other concerns and hope you will abandon the above plan to install 5G on Priory Road.

Best wishes
