**RE PLANNING Application No 2021/3370/P (106 King Henry's Road NW3)**

Dear Sir,

We are a longstanding residents of King Henry's Road and live at No 145.

We have belatedly discovered that the above planning application was made during the summer, and we write to lodge our objections to the proposed development on the following grounds:

- The proposed additional storey would be entirely out of keeping with the location. It is mid terrace and would introduce an ugly and inappropriate break into the street scene and neighbourhood generally.
- It would depart from the uniformity of the Chalcots Park Estate which has a harmonious design and respects height.
- The proposed additional floor would be out of step with the original design concepts of the Estate which so far have been well preserved and ensured that the area retains its unique and special feeling ~ to allow this proposal would set a wrong precedent and lead to incremental erosion of that concept to the detriment of the neighbourhood.
- The property has already been extended by the excavation of a basement and the proposed additional space does not add anything tangible in terms of the current local housing stock.

Yours faithfully
