2021/3704/P	Antonello Romano	06/10/2021 13:39:08	OBJ	<p>I have been living in [REDACTED] as well as the back of our buildings where our bedrooms are located are extremely quiet. We also receive a lot of light which for me living on the lower ground floor is so important. The proposed office building extension will severely affect how much light come through our windows and the extractors fans proposed will create noise pollution which will severely affect our lives. We are very fortunate to live in a very quiet street that feel like a neighbourhood and I would not to see this change by an exaggerated office building which will benefits large corporations while negatively impact in the lives of the residents.</p>
2021/3704/P	Zak Dada	04/10/2021 23:38:31	OBJ	<p>To whom it may concern,</p> <p>I am writing in objection to this as I believe that this proposal will I am currently renting a flat in [REDACTED] and all of the residents appear to agree in dissenting to this planning application.</p> <p>We would really appreciate Camden Council coming to a conclusion to deny this planning ass 2.5 years of building work and noise would be immensely destructive to the quiet enjoyment of our homes. Furthermore, the increased building height would cause right of light issues along with being an eyesore to a beautiful listed building.</p> <p>Especially in the day and age of working from home, I fail to see why it would be prudent for Camden Council to give planning consent for these offices to be constructed.</p> <p>Kind regards,</p> <p>Zak</p>
2021/3704/P	Sheen Chan	06/10/2021 10:48:35	OBJ	<p>The proposals will result in loss of light, loss of privacy, noise and disruption for the residents of Bloomsbury Terrace and surrounding residents. For those reasons, I object to this planning permission application.</p>
