Dear Adam Greenhalgh

Re: Revised application 2021/3378/P – 17 Jeffrey's Street NW1

I am writing to object to the revised proposals for the above and to request that the application be refused. The terrace of which number 17 forms a part is a notable and unusual one and should be respected for its architectural merit and integrity. If the applicants do not want a house with this configuration and appearance then why have they bought it ?

This is a conservation area and that means conserving the buildings within the area intact not knocking them about to suit the whims of the latest owner.

Thank you for your attention.

Fiona Trier
