Subject: RECEIVED ? 3674/P. Final Submission FOR LIST?

Dear Kate..

I do hope you received my final submission for consideration and Listing.. and it meets your needs.?

I know the colour images may not appear on List.. but perhaps they should ? - being most critical to paint colours under consideration - which radically concern the 'understood nature' of our 'conservation' area.

I did wonder why KTNF seem to have had "no comments either way" at any stage, since 4756/p in 2017 on this most unusual and controversial application & very many other applications submitted to Camden?

This seems puzzling if public confidence is to be maintained in such a relevant local aspect to us, in the Camden Planning process. Is it not time a more effective form of consultation should appear in place of KT.. 'No' Opinions ? Forum?

I do hope a moratorium is brought in - for the progressive creative development on the Rib or Fin type of 'cladding' - which is highly controversial - amongst those most affected & who will be forced to look at it.

No worthwhile innovation - should be imposed onto the local streetscape - without being 'road tested*' and wider popular local acceptability. Design 'teams' aren't the best arbiters - beyond their own areas. & It's ultimately - much more our "own neighbour-hood" - for us - living there, as the local residents.

Best Regards

Stephen Coe
