

Subject: Reference 2021/3839/P

Dear Ms. Henry,

I would like to strongly object to the planned development Reference 2021/3839/P. I own a flat in the adjacent road while my sister is a leaseholder in the affected building. The area is a quiet residential area and the proposal will destroy the unique look of this historic building, and create enormous amounts of noise and distress for years to come, adversely affecting both property and rental prices in the immediate and long-term. It will also add additional pressure to the already problematic parking issue in the roads immediately surrounding the building.

Kind regards,
Jonathan Polonsky
