BRITAIN'S FINEST TIMBER WINDOWS & DOORS

MUMFORD & WOOD

BRITAIN'S FINEST TIMBER WINDOWS & DOORS

Welcome to Mumford & Wood, where traditional aesthetics meets cutting-edge technology to produce Britain's finest timber windows & doors.

Specified for landmark refurbishments, as well as commercial and residential developments, our design team have been instrumental in helping architects, developers and homeowners to achieve the highest performance and quality for their properties.

Our Conservation™ products are hand crafted, with a series of sanding processes to achieve a traditional look. Deep moulded profiles, advanced timber section design and material, together with a variety of glazing options and factory applied paint result in timber windows and doors that offer the longevity, security and acoustic performance of a high-end modern window or door, but with our unique traditional aesthetic.

Established in 1954, our skilled and committed workforce is based in Tiptree, Essex. Following an investment of £1.5m in computerised plant and equipment, the company continues to expand in order to meet increased demand, while maintaining a hard-won reputation for quality and service.

With a sales team that covers the entire country and a RIBA assessed CPD Factory Tour, we look forward to helping you deliver your latest project.

FACTORY TOUR

BUILT TO PERFECTION

Mumford & Wood's state-of-the-art manufacturing facility in Tiptree, Essex, extends to over 3,000m² and has recently undergone a £1.5m investment in new plant and equipment.

For those who are interested in seeing how the Mumford & Wood facility works, the Tiptree Factory Tour provides a fascinating insight. This one-hour long tour shows visitors the processes of timber selection and preparation, moulding of profiles, frame and sash assembly to painting, glazing, hand finishing and wrapping.

Our Factory Tour is a RIBA-assessed CPD.

and your colleagues, please call us on 01621 818155

CONSERVATION™ BOX SASH WINDOWS

The product that built our reputation.

Designed to directly retro-fit in place of original box sash windows in older properties, or to create a traditional appearance in new-builds.

These windows offer authentic period styling and the latest window technology, including double glazing for superb thermal and acoustic performance and three coats of spray applied, water based, micro-porous paint from the RAL Classic swatch or in a bespoke colour.

A favourite with architects, planning authorities and preservation societies, the Conservation™ box sash features traditional weights, heavy duty ball bearing pulley wheels and pre-stretched nylon cords that will not break or stretch.

The distinctive deep moulded internal profiles are available in a choice of either ovolo or lamb's tongue profiles with elegant glazing bars to match.

MAIN IMAGE
8 ST MARYS, LONDON
Our beautiful timber Conservation™ sash windows were specified for this bespoke, new build residence in Wimbledon Village.

MAIN IMAGE
55 NEW CAVENDISH STREET,
LONDON

Situated in the bustling and historic Marylebone, and is part of the Howard de Walden estate that owns most of the buildings in the immediate 92-acre area. Built in 1888 by architect W. Henry White, 55 New Cavendish Street has undergone refurbishment making it suitable for office or medical use with faithfully detailed sash windows matching the originals.

CONSERVATION™ SPRING SASH WINDOWS

Featuring pre-tensioned spring balances, these double glazed windows offer classic period styling, a reduction in space when compared to traditional weights and pulleys, together with improved ease of use.

Double glazed to exceed required energy-efficiency standards, and finished with three coats of spray applied, water based, micro-porous paint from the RAL Classic swatch or in a bespoke colour, this high specification range brings the much loved sash window into the 21st Century.

MAIN IMAGE
HAMPSHIRE

*Beautifully proportioned new
build countryside property
designed in a Georgian style.*

Conservation™ spring sash windows offer the perfect solution for new-build projects and buildings requiring a flush-reveal installation. These popular double glazed windows ensure ultimate standards of security, thermal and acoustic performance which exceed the requirements of current Building Regulations.

In conservation areas, and in more modern buildings of traditional architectural style, we have designed a simple box cover to completely conceal the modern spring balance which achieves an authentic period aesthetic. The quick-fit staff and parting bead can be easily removed for quick and efficient redecoration.

MAIN IMAGE
ASQUITH HOUSE
Superb new-build featuring many beautiful and hi-spec design enhancements together with our Conservation™ spring sash windows and entrance doors.

These specially adapted sash windows are hung on pre-tensioned springs and have a tilt and slide bottom sash which efficiently and conveniently tilts inwards into the room. Externally the window coordinates with all products in the Conservation™ collection, has slender meeting rails, fine glazing bars and traditional mouldings.

CATHERINE STREET, LONDON WC2
The elegant architecture of Covent Garden in London's West End boasts an eclectic atmosphere that attracts Londoners and many overseas visitors. Here double glazed Conservation™ casement windows, some with curved heads, others in a bay configuration with decorative fanlights above, closely replicate the originals.

CONSERVATION™ CASEMENT WINDOWS

A high performance casement window range offering traditional sightlines that coordinate with all Conservation™ products. Feature a flush-line traditional appearance of casement to frame.

Ideal for older properties and new-build projects, every window is made-to-order to your specific design. Specify size, number of panes, glazing bars, profile style and opening method, and we will design and manufacture for you. Finished with three coats of spray applied, water based, micro-porous paint from the RAL Classic swatch or in a bespoke colour.

YEARS	YEARS	YEARS	YEARS	YEARS
Timber	Hardware	Glazing	Paint	Stain

Our established double glazed Conservation™ casement range offers excellent performance ratings that exceed the requirements of current Building Regulations. Our A+ rated specification, with its carbon neutral status in accordance with the BRE Green Guide to Specification, will help architects and designers achieve essential materials credits for their creations.

These elegant windows are also Secured by Design accredited for your total peace of mind.

MAIN IMAGE & INSETS
TURNBERRY RESORT

The rugged west coast of Scotland is home to the landmark Turnberry Resort and now over 1,000 Conservation™ casement windows and doors as part of its restoration.

MAIN IMAGE
CAMBRIDGESHIRE
A former paddock in a village setting has been developed into a range of new, sympathetically designed homes with Mumford & Wood selected as the windows and doors partner.

MAIN IMAGE
SUFFOLK NEW BUILD
A new build house in the Suffolk countryside has products from the Mumford & Wood Conservation™ Range specified in its construction. Sash and Casement windows painted in a shade of off-white, with the entrance doors in Red Grandis Stained Oak, which form important elements of the overall design.

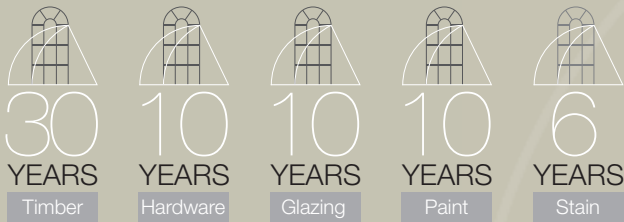

CONSERVATION™
FRENCH, BALCONY &
BI-FOLDING DOORS

Tradition meets innovation with the Conservation™ range of double glazed French Doors, Balcony Doors and Bi-Folding Doors. All combine elegant traditional sightlines with modern performance.

French Doors are made in 57mm thick sections to give a traditional feel with excellent operation and stability.

Balcony Doors feature particularly narrow vertical stiles to maximise natural light.

Our made-to-order Bi-Folding Doors can accommodate up to seven leaves, spanning openings of up to 5.9m.

Featuring high-performance weather stripping, complete with multi-point locking systems and high security cylinder, our Secured by Design accredited French doors offer high thermal performance with U-values that surpass the requirements of current Building Regulations.

MAIN IMAGE & INSERT
THE BARN, NORFOLK
*Bi-Folding doors are the perfect
addition to this barn conversion
near Thetford Forest.*

Our core specification Bi-Folding Doors feature an ovolo sash profile, with or without glazing bars, and the option of a lamb's tongue profile to coordinate with your windows and doors. They are also available with a square profile to achieve a more contemporary style.

Factory finished and double glazed, 24mm Argon filled panels with low-emissivity glass coating as standard specification can be exchanged for laminated or obscure glass, while stylish ironmongery is available in a choice of elegant designs and finishes.

MAIN IMAGE
DANBURY, ESSEX
Conservation™ range products throughout this new build give a traditional feel, with Bi-Folding doors providing a true link to the garden.

CONSERVATION™ ENTRANCE DOORS

Constructed using traditional methods while exceeding today's standards of thermal and acoustic performance, our entrance doors are made-to-order to suit your precise specification. This includes raised and fielded panels, double glazed units, decorative fanlight grilles and ironmongery. Every entrance door is supplied with three coats of spray-applied, highly durable, micro-porous paint from the RAL Classic swatch or in a bespoke colour or stain.

Naturally Secured by Design accredited.

SAATCHI GALLERY,
CHELSEA
*Single glazed, Conservation™
historic box sash windows were
made-to-order in the dramatic
conversion of the main building
of the Duke of York's HQ,
Chelsea, now the home of the
Saatchi Gallery.*

HERITAGE™ RANGE

Our fully coordinated Heritage™ range of authentic period windows and doors are designed to replicate and replace original single glazed windows, like-for-like to the very finest detail, and are particularly suited for listed buildings and stringent planning requirements.

Manufactured as single glazed frames with hand-faced external putty and true bars, just as the originals would have been, Heritage™ windows and doors feature 4mm toughened glass or choice of heritage-style glass to give a more authentic, uneven finish. Each window is bespoke in size and pattern, with a profile preference of Georgian, Gothic, Victorian or Queen Anne ovolo, to precisely replicate the originals.

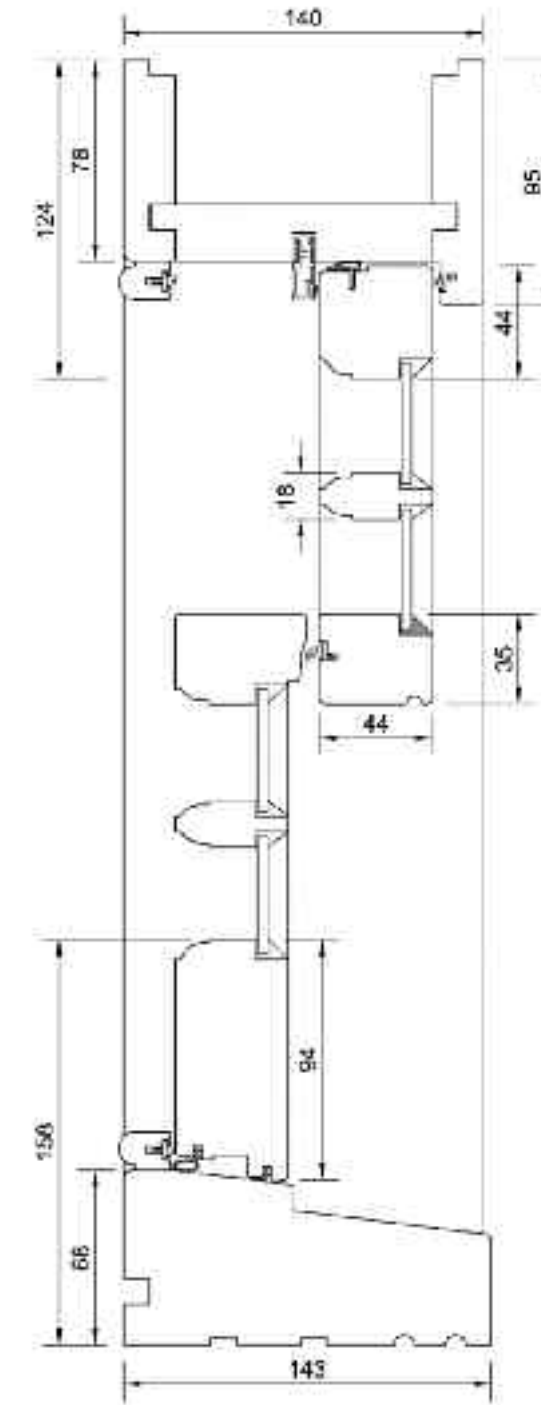

The natural choice for listed properties* where there is no requirement to meet current Building Regulations.

*Subject to planning approval.
