Project 2021/3580/P

Hello, my name is Fatima Begum.

I live in Springwater right opposite the carpark.

I moved into this place last November 2020 because I really liked the sunlight that was coming into the rooms.

I have been suffering from depression and anxiety, I suffered from mental domestic abuse and I finally decided to start my life afresh in this new place. However now the very thought of this building covering the sunlight and bringing darkness into my home is very depressing. My kids love the sunlight and warmth it brings into our home and now the danger of that being taken away from them is causing me anxiety. When i saw this I started to have a panic attack and breathing problems, this is unfair.

Please please this cannot happen, please don't take away this sunlight and warmth from us. I don't want to go back into depression, my home is my only safe haven. I stand in the balcony and take in the air. This area is already congested and we don't need any more of that.
