Subject: Re: Application ref:2021/4943/T
Importance: High

Dear Mr Curry,

The tree in question then is on our property and we were not informed of any inspection and no one requested access to our property for a survey. Furthermore, Ms Silverberg is the name of the elderly woman who has long owned Flat 1 at 39 Eton Ave but resides in Florida and currently selling her flat (two doors down from us). I doubt Ms Silverberg would file a report from the United States regarding a tree on our property. The agent listed on your application appears to be bogus as I was told his professional tree website does not exist when launching a search. I also tried calling the numbers listed on the application for Mr Norfolk but to no avail.

In addition, please know we recently had all trees on our property surveyed by a professional company, Landmark Tress, and all trees were reported to be completely healthy.

We look forward to the application being denied.

Yours sincerely,

Bronwyn Preston and Grant Hill
Property owners at Flat #3
39 Eton AVE
London NW3 3EP
