Subject: re. Howitt Close: Planning application

[Redacted]

Reference 2021/3839/P

I am particularly concerned at the raising of the height of the building.

I am across the communal gardens in Belsize Grove and we already have loss of sunlight due to the trees. The elevation proposed will block light and sunlight from the communal gardens and also from my flat.

This is an historic Art Deco building and should not be altered in the manner proposed.

Thanks
Carlie Newman
